How to read this list

- All 25 figures are **verified**: TrustMRR reads them from the business's payment provider (Stripe, RevenueCat, Paddle and others).
- Revenue is the **real example business's** monthly recurring revenue at its last sync. It is not a forecast of what you will earn.
- The idea title and guide describe **our own version** you could build; agent, tools, setup level and monthly cost come from our guides (tool list prices, labeled as our estimate).
- 4 figures marked (**older sync**) were last synced more than 45 days before this list was made.

How we built this list

- Taken from the 193 ideas on AgentPickList on 2026-10-20. We kept only entries with a numeric monthly revenue labeled **verified** and sorted them by that number.
- **Verified** means TrustMRR shows the figure from the payment provider's API (provider and sync date shown on each entry). We never estimate or round up revenue, and we never invent numbers.
- Rank on the site (#) is today's AgentPickList ranking by X buzz, which can change daily.
- Spotted a mistake? Every entry links its source. Corrections: see agentpicklist.com/methodology/.
